

SN 09/188,827

13

receive transaction information for a transaction which entails obligations which are in default;
store the transaction information in the data repository;
initiate a recovery process for the transaction, said process involving services to be provided by multiple service providers;
receive reporting information regarding the recovery process from said service providers electronically over a communication network;
and,
provide automated coordination of the recovery process by coordinating communications with said multiple service providers in response to the transaction information stored in the data repository, the transaction information being automatically up-dated with said reporting information to indicate a current status of the transaction.--

IN THE DRAWINGS

In Figure 1, reference character 34 has been amended to be consistent with the text of the specification. Specifically, "Escrow The Agent Computer" has been amended to "Escrow/Title Agent Computer".

A copy of the proposed drawing correction, outlined in "red", will be forwarded to the Examiner by Air Mail.

Upon receipt of the Notice of Allowance in this application, new formal drawings will be provided to the Official Draftsman.
